

# Virtual Key for Your Repositories

## Project objective:

As a Full Stack Developer, complete the features of the application by planning the development in terms of sprints and then push the source code to the GitHub repository. As this is a prototyped application, the user interaction will be via a command line.

Step -1:- First we will understand the given problem statement and what are the requirements we need? And Build the plan or flow chart and by using two sprints.

- First we create a project in Jira software tool and name given Project Name , we give key name also simultaneously.

The screenshot shows a Jira Software interface. On the left, there's a sidebar with 'VERSIONS' and 'Epic' sections. The main area displays a 'Scrum software development' project card with fields for 'Name' (Virtual Key for Your Repositories Project 1) and 'Key' (VKFYRP). A description text states: 'You are creating a project for a Scrum team. You may want to name this project after the product or development team that will use it.' At the bottom right of the card are 'Back', 'Submit', and 'Cancel' buttons. The status bar at the bottom right shows '28°C 14:39 05-07-2022'.

## Step-2:-

After we create Sprint 1 and create a task or story and assigned to [sunriser.7hills@gmail.com](mailto:sunriser.7hills@gmail.com)

The screenshot shows a Jira Software interface. The left sidebar has 'VERSIONS' and 'Epic' sections. The main area shows a backlog for 'VKFYRP Sprint 1' which contains one issue. A note says: 'First we analysis the project and what are requirements we need? and to build a plan or flow chart by using Two sprints.' On the right, a detailed view of the single issue is shown with fields like Status (TO DO), Priority (Medium), Component/s (None), Labels (None), Affects Version/s (None), Fix Version/s (None), and Epic Link (None). The status bar at the bottom right shows '28°C 14:53 05-07-2022'.

### Step-3:-

Next we are creating no of stories and tasks in VKEYRP sprint 1.

The screenshot shows the Jira Software interface for the VKEYRP project. The main view displays the backlog with two issues: VKFYRP-1 and VKFYRP-2. A modal window for VKFYRP-2 is open, providing detailed information about the issue, including its summary, reporter (sunriser.7hills@gmail.com), and components. The interface includes various filters and navigation options on the left and top.

The screenshot shows the Jira Software interface for the VKEYRP project, specifically the 'Create Issue' dialog. The dialog is filled with fields for creating a new task: Project (Virtual Key for Your Repository Project 1), Issue Type (Task), Summary (We create a files in a existing Directory by using File handling.), Reporter (sunriser.7hills@gmail.com), and Component/s (None). A modal window for VKFYRP-2 is visible in the background, showing its details. The interface includes various filters and navigation options on the left and top.

Screenshot of Jira Software Backlog view for project VKFYRP.

The backlog shows a sprint named "VKFYRP Sprint 1" containing 5 issues:

- VKFYRP-1 First we analysis the project and what are requirements we need? and to build a plan or flow ch... (Priority: Medium)
- VKFYRP-2 How to start, development and deploy the project by using two sprints (Priority: Medium)
- VKFYRP-3 Analysis the code for company Welcome display page by using core java concepts. (Priority: Medium)
- VKFYRP-4 To creating a Directory for storing the company Digital... (Priority: Medium)
- VKFYRP-5 We create a files in a existing Directory by using File handling. (Priority: Medium)

A modal window is open for "VKFYRP-5", showing its details:

**Virtual Key for Your Repositories Project 1 / VKFYRP-5**

We create a files in a existing Directory by using File handling.

**Details**

Status:	TO DO (View Workflow)
Priority:	Medium
Component/s:	None
Labels:	None
Affects Version/s:	None
Fix Version/s:	None
Epic Link:	None

**People**

Bottom status bar: 28°C, ENG, 15:03, 05-07-2022.

Screenshot of Jira Software Backlog view for project VKFYRP.

The backlog shows a sprint named "VKFYRP Sprint 1" containing 6 issues:

- VKFYRP-1 First we analysis the project and what are requirements we need? and to build a plan or flow ch... (Priority: Medium)
- VKFYRP-2 How to start, development and deploy the project by using two sprints (Priority: Medium)
- VKFYRP-3 Analysis the code for company Welcome display page by using core java concepts. (Priority: Medium)
- VKFYRP-4 To creating a Directory for storing the company Digitalized Files (Priority: Medium)
- VKFYRP-5 We create a files in a existing Directory by using File handling. (Priority: Medium)
- VKFYRP-6 we will do Business operations like Create, search, and delete in files (Priority: Medium)

A sidebar on the right displays the issue details for VKFYRP-6:

- Virtual Key for Your Repositories Project 1 / VKFYRP-6**
- we will do Business operations like Create, search, and delete in files
- Details**
  - Status: TO DO (View Workflow)
  - Priority: Medium
  - Component/s: None
  - Labels: None
  - Affects Version/s: None
  - Fix Version/s: None
  - Epic Link: None
- People**
  - Reporter: sunriser.7hills@gmail.com
  - Assignee: Unassigned

Bottom status bar: 28°C, ENG, 15:04, 05-07-2022.

Screenshot of Jira Software Create Issue dialog for project VKFYRP.

The dialog shows the following fields:

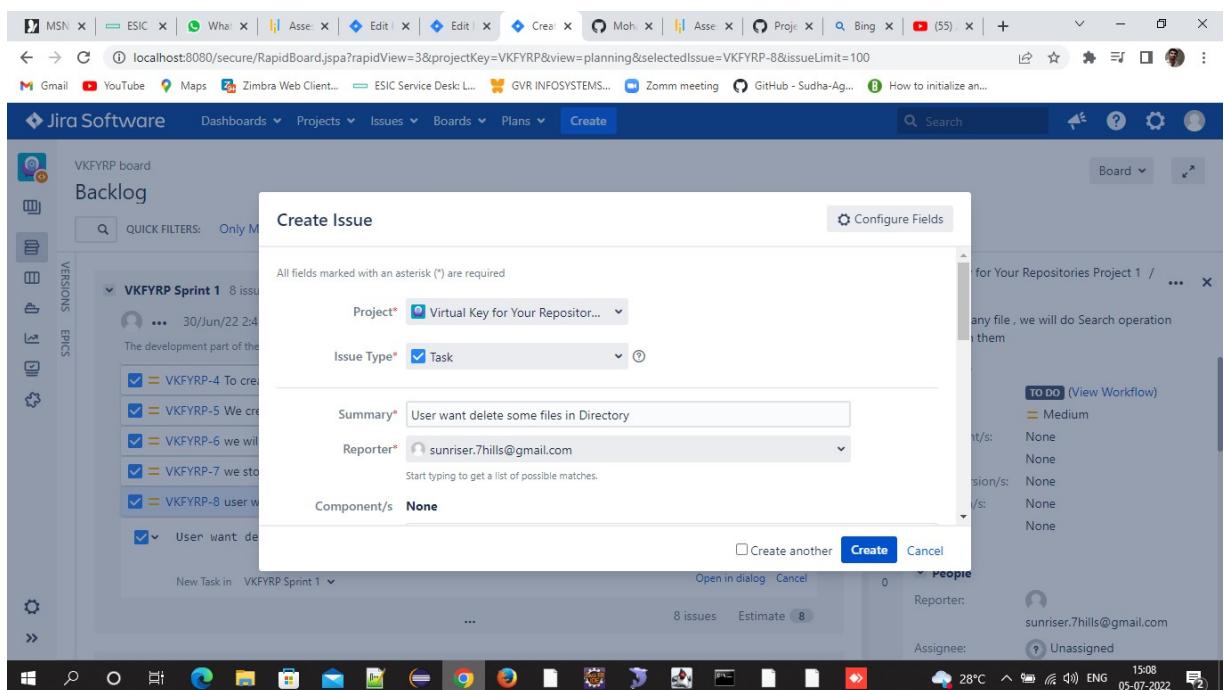

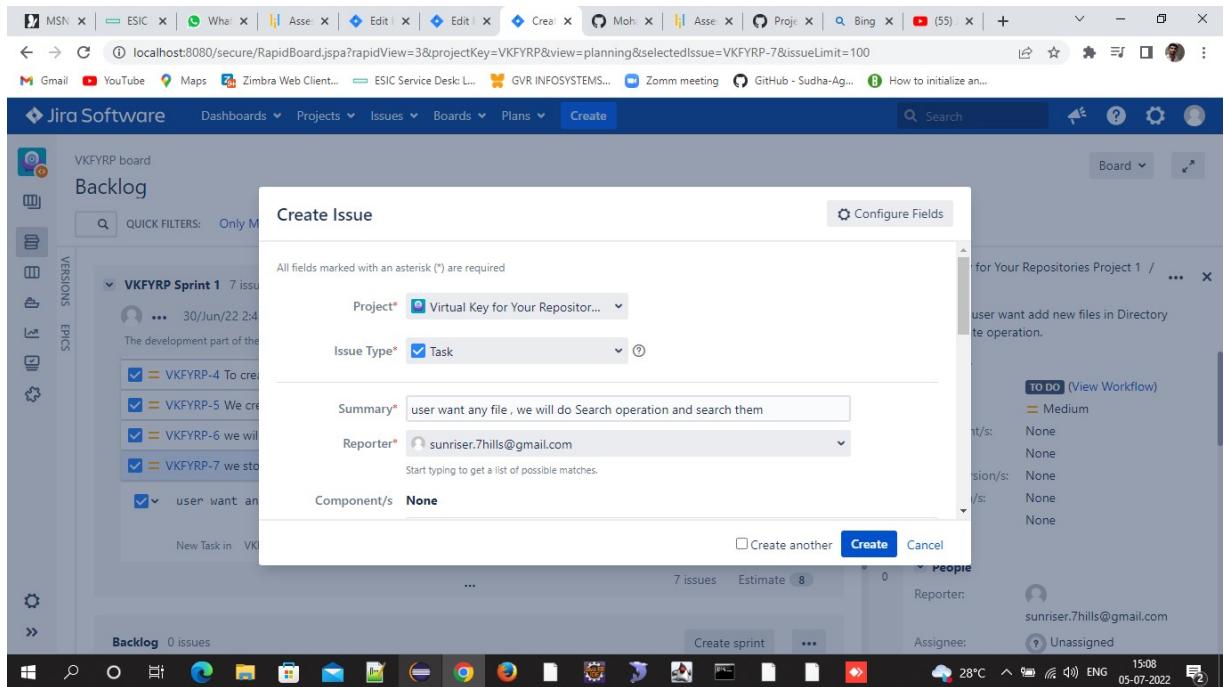

- Project:** Virtual Key for Your Repository...
- Issue Type:** Task
- Summary:** we stored user want add new files in Directory using Create operation.
- Reporter:** sunriser.7hills@gmail.com
- Component/s:** None

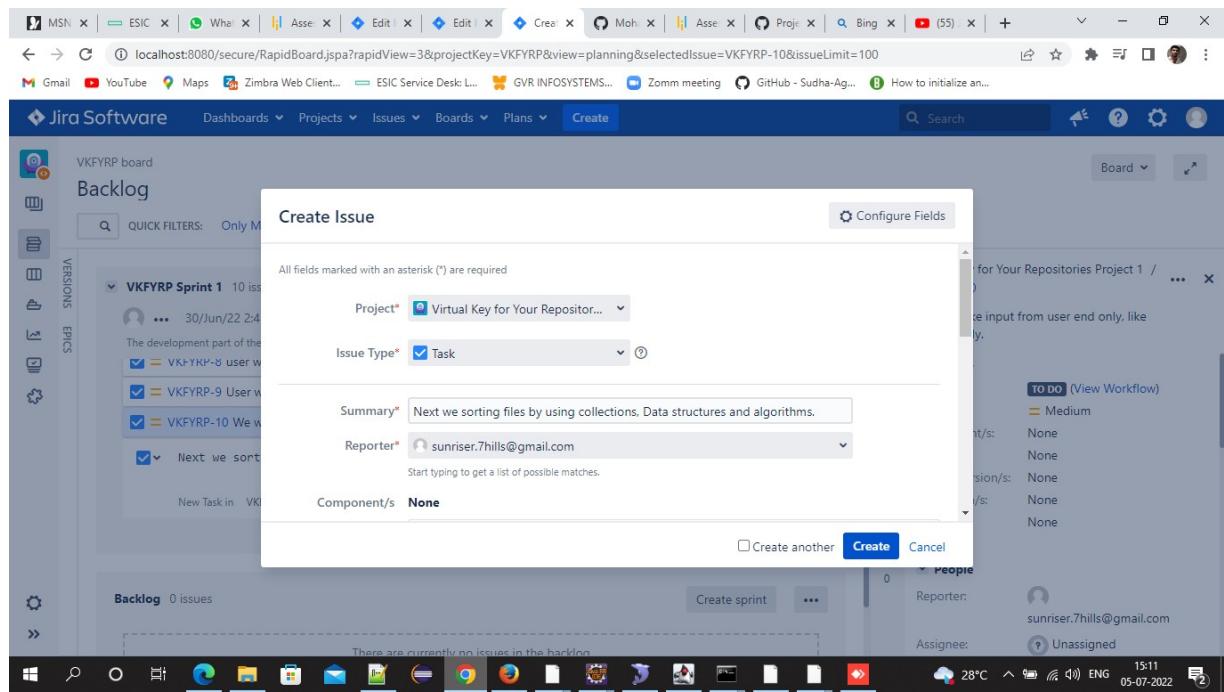

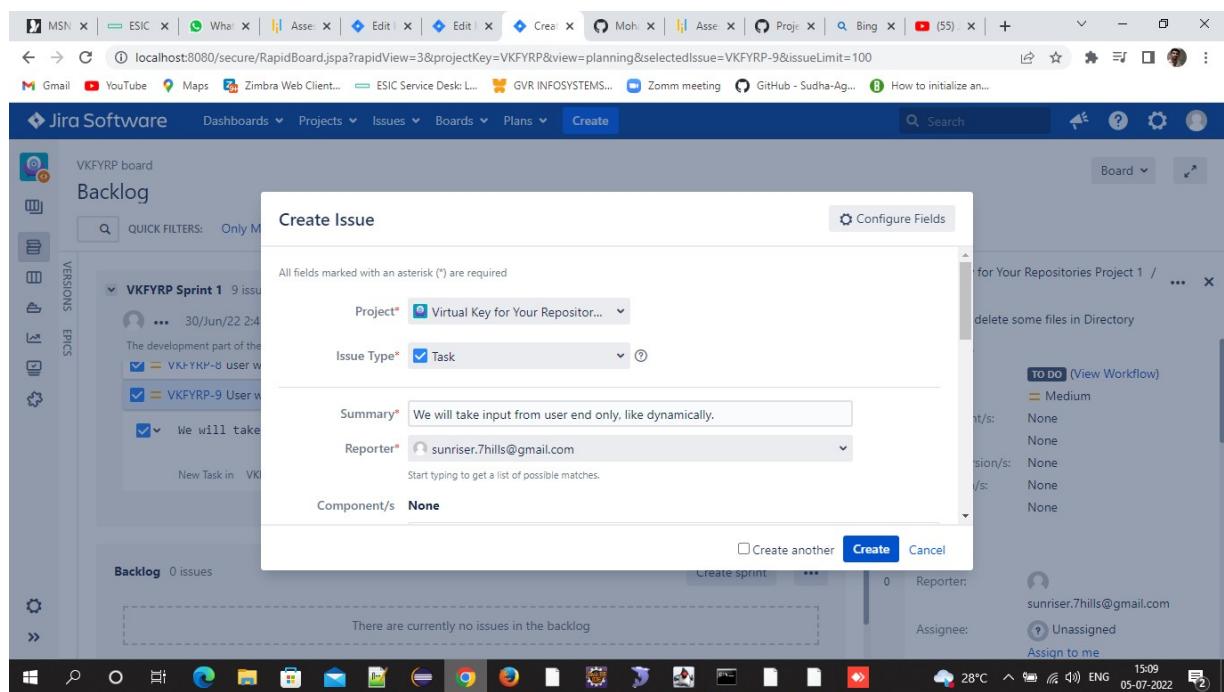

Buttons at the bottom: Create another, Create, Cancel.

Right sidebar shows the issue details for VKFYRP-6:

- Virtual Key for Your Repositories Project 1 / VKFYRP-6**
- Business operations like Create, search, and delete in files
- TO DO (View Workflow)**
- Priority: Medium
- Component/s: None
- Labels: None
- Affects Version/s: None
- Fix Version/s: None
- Epic Link: None

Bottom status bar: 28°C, ENG, 15:06, 05-07-2022.

The screenshot shows the Jira Software interface. A modal window titled "Create Issue" is open. The "Project" dropdown is set to "Virtual Key for Your Repository...". The "Issue Type" dropdown is set to "Task". The "Summary" field contains the text "Any error occurred at functionality time, to resolve by using Exception handling". The "Reporter" dropdown is set to "sunriser.7hills@gmail.com". The "Component/s" dropdown is set to "None". On the right side of the modal, there is a "Configure Fields" button and a "TO DO (View Workflow)" section. The background shows a backlog board with several items under "VKFYRP Sprint 1".

This screenshot is nearly identical to the one above, showing the "Create Issue" modal. The difference is in the "Summary" field, which now contains the text "After we combining these all issues and set the Source code and ready for Exec". All other fields and the background backlog board remain the same.

And we finally create totally 13 tasks and assigned to [sunriser.7hills@gmail.com](mailto:sunriser.7hills@gmail.com).

The screenshot shows the Jira Software interface for the VKFYRP board. The backlog is displayed with the following tasks under the 'VKFYRP Sprint 1' epic:

- VKFYRP-1 First we analysis the project and what are requirements we n...
- VKFYRP-2 How to start development and deploy the project by using ...
- VKFYRP-3 Analysis the code for company Welcome display page by us...

- VKFYRP-5 We create a files in a existing Directory by using File handling.
- VKFYRP-6 we will do Business operations like Create, search, and delet...
- VKFYRP-7 we stored user want add new files in Directory using Create ...
- VKFYRP-8 user want any file , we will do Search operation and search t...
- VKFYRP-9 User want delete some files in Directory
- VKFYRP-10 We will take input from user end only, like dynamically.

The right panel displays the details for the first task, VKFYRP-1, including the reporter and assignee both set to sunriser.7hills@gmail.com. The task was created just now and updated just now.

This screenshot is similar to the previous one, but it shows the task 'VKFYRP-1' has been removed from the backlog. The remaining tasks are:

- VKFYRP-2 How to start development and deploy the project by using ...
- VKFYRP-3 Analysis the code for company Welcome display page by us...
- VKFYRP-4 To creating a Directory for storing the company Digitalized F...
- VKFYRP-5 We create a files in a existing Directory by using File handling.

## Step-6:-

Next we start the VKFYRP Sprint 1, see below screen shot.

The screenshot shows a Jira Software interface for the 'VKFYRP board'. A modal dialog box titled 'Start VKFYRP Sprint 1' is open. The dialog contains the following information:

- Sprint Name:** VKFYRP Sprint 1
- Goal:** The development part of the given project.
- Duration:** 2 weeks
- Start Date:** 30/Jun/22 2:45 PM
- End Date:** 14/Jul/22 2:45 PM

On the right side of the screen, there is a sidebar for the 'Virtual Key for Your Repositories Project 1 / VKFYRP-13' issue. It shows the following details:

- Reporter:** sunriser.7hills@gmail.com
- Assignee:** sunriser.7hills@gmail.com
- Dates:** Created: 13 minutes ago, Updated: Just now
- Description:** Click to add description

The taskbar at the bottom of the screen shows various application icons, including Microsoft Edge, Google Chrome, and Mozilla Firefox.

The screenshot shows the 'VKFYRP Sprint 1' board view in Jira. The board has three columns: TO DO, IN PROGRESS, and DONE.

- TO DO:**
  - VKFYRP-1: First we analysis the project and what are requirements we need? and to build a plan or flow chart by using Two prints. (Development part)
  - VKFYRP-2: How to start, development and deploy the project by using two prints. (Development part)
  - VKFYRP-3: Analysis the code for company Welcome display page by using core java concepts.
- IN PROGRESS:** No issues are currently in progress.
- DONE:** No issues have been completed yet.

The top navigation bar shows the URL as <localhost:8080/secure/RapidBoard.jspa?rapidView=3&projectKey=VKFYRP&view=planning&selectedIssue=VKFYRP-13&versions=visible&epics=visible&issueLimit...>. The taskbar at the bottom of the screen shows various application icons, including Microsoft Edge, Google Chrome, and Mozilla Firefox.

Next we stat the work Task 1 and finish the work

## Step-7:-

We configure the settings in Board and sprint : VKFYRP board

The screenshot shows the Jira configuration interface for the 'VKFYRP' board. The left sidebar is titled 'CONFIGURATION' and includes options like General, Columns, Swimlanes, Quick Filters, Card colours, Card layout, Estimation, Working days, and Issue Detail View. The 'General' tab is selected. The main panel is titled 'General and filter' and contains the following details:

- Board name:** VKFYRP board
- Administrators:** sunriser.7hills@gmail.com (sunriser.7hills)
- Filter:** Filter for VKFYRP board
- Shares:** Project: Virtual Key for Your Repositories Project 1 (VIEW)
- Filter Query:** project = VKFYRP ORDER BY Rank ASC
- Ranking:** Using Rank
- Projects in board:** Virtual Key for Your Repositories Project 1

Below the main panel, the status bar shows the URL as localhost:8080/secure/RapidView.jspa?rapidView=3&tab=filter, the date as 05-07-2022, and the time as 15:43.

The screenshot shows the Jira configuration interface for column management. The left sidebar is titled 'CONFIGURATION' and includes options like General, Columns, Swimlanes, Quick Filters, Card colours, Card layout, Estimation, Working days, and Issue Detail View. The 'Columns' tab is selected. The main panel is titled 'Column management' and contains the following details:

- Column Constraint:** None
- Days in column:** Shows dots representing the time an issue spent in a particular column on Jira board.
- Simplified Workflow:** Using Simplified Workflow

The workflow for project 'Virtual Key for Your Repositories Project 1' is currently managed by Jira Software. Project Administrators can add and remove statuses below. Buttons for 'Add status' and 'Add column' are available.

Below the main panel, the status bar shows the URL as localhost:8080/secure/RapidView.jspa?rapidView=3&tab=columns, the date as 05-07-2022, and the time as 15:46.

localhost:8080/secure/RapidView.jspa?rapidView=3&tab=time

Working days

These settings allow you to highlight or exclude non-working days from reports and gadgets.

They apply to the following reports: Burndown Chart, Sprint Report, Epic Report, Version Report, Control Chart; and the following gadgets: Sprint Health Gadget, Burndown Gadget.

## Jira Software

VKFYRP board Sprint Report Switch report

How to read this chart

Understand the work completed or pushed back to the backlog in each sprint. This helps you determine if your team is overcommitting or if there is excessive scope creep.

Hide this information

VKFYRP Sprint 1

**COMPLETED** The development part of the given project.

Details View linked pages

Started: 05/Jul/22 3:31 PM by sunriser.7hills@gmail.com (planned - 30/Jun/22 2:45 PM)  
Ended: 05/Jul/22 3:52 PM by sunriser.7hills@gmail.com (planned - 14/Jul/22 2:45 PM)

The chart shows a downward-sloping line from (Jul 5, 8) to (Jul 14, 0). A horizontal line is drawn at y=4 between Jul 5 and Jul 14. The area under the line is shaded grey.
